WebMD Health Corp. Announces Preliminary Results of Its Tender Offer

NEW YORK, Sept. 11, 2013 /PRNewswire/ -- WebMD Health Corp. (Nasdaq: WBMD) announced today the preliminary results of its tender offer to purchase up to 5,000,000 shares of its common stock at a price of \$34.00 per share, which expired at 5:00 p.m., New York City time, on September 10, 2013. Based on the preliminary count by American Stock Transfer & Trust Company, the Depository for the tender offer, approximately 28.5 million shares of common stock were tendered and not withdrawn, including: approximately 14 million shares that were tendered through notice of guaranteed delivery; and approximately 2.5 million shares that were conditionally tendered by stockholders and for which the determination whether the applicable conditions were met will be made following the verification process described below. Accordingly, WebMD expects to accept for purchase a total of 5,000,000 shares at a purchase price of \$34.00 per share, for an aggregate purchase price of \$170 million.

Since the offer was oversubscribed, the number of shares that WebMD will purchase from each tendering shareholder will be pro-rated. Based upon the preliminary count, WebMD estimates that the pro-ratio factor will be approximately 18%. The number of shares tendered and not withdrawn and the pro-ratio factor are preliminary and are subject to: verification by American Stock Transfer & Trust Company; the proper delivery of all shares tendered (including shares tendered pursuant to guaranteed delivery procedures); and the impact of odd-lot tenders and of final determination of the treatment of shares conditionally tendered by stockholders. The actual number of shares validly tendered and not withdrawn and the pro-ratio factor will be announced promptly following completion of the verification process. Promptly after such announcement, the Depository will issue payment for the shares validly tendered and accepted under the tender offer and will return all other shares tendered. It is currently expected that payment for all shares purchased will be made on or about September 16, 2013.

As of September 10, 2013, WebMD had approximately 50.8 million shares of common stock outstanding (including approximately 0.9 million shares of unvested restricted stock). After giving effect to the results of the tender offer, WebMD expects to have approximately 45.8 million shares of common stock outstanding (including the unvested restricted stock) and approximately \$880 million in cash and cash equivalents.

The Information Agent for the tender offer is Innisfree M&A Incorporated. The Depository is American Stock Transfer & Trust Company. For questions and information, please call the Information Agent toll free at 1-888-750-5834.
