### WebMD Reports First Quarter Financial Results and Reaffirms 2017 Guidance

NEW YORK, May 2, 2017 /PRNewswire/ -- WebMD Health Corp. (NASDAQ: WBMD), the leading source of health information, today announced financial results for the three months ended March 31, 2017.

"As expected, our first quarter results were below last year's reflecting a more challenging macro environment for many of our biopharma customers and disappointing sales in 2016 in our Health Services business," said Dr. Steven Zatz, CEO of WebMD. "We remain focused on restoring WebMD's growth by providing the highest-quality health content, guidance and tools for both consumers and healthcare professionals, as well as delivering superior results for our advertisers and value for our shareholders."

### **Financial Highlights**

For the three months ended March 31, 2017:

- Revenue was \$154.1 million, compared to \$158.6 million in the prior year period, a decrease of 3%. Advertising and sponsorship revenue was \$121.5 million, compared to \$122.4 million in the prior year period. Health services revenue was \$24.5 million, compared to \$28.3 million in the prior year period. Information services revenue was \$8.0 million, compared to \$7.9 million in the prior year period.
- Net income was \$12.3 million or \$0.30 per diluted share, compared to \$15.7 million or \$0.36 per diluted share in the prior year period.
- Earnings before interest, taxes, non-cash and other items ("Adjusted EBITDA") was \$41.0 million, or 26.6% of revenue, compared to \$47.1 million, or 29.7% of revenue, in the prior year period.

### **Balance Sheet Highlights**

As of March 31, 2017, WebMD had: approximately \$1.034 billion in cash and investments; \$1.06 billion in aggregate principal amount of convertible notes outstanding; and approximately 37.8 million shares of its common stock outstanding (including approximately 700 thousand unvested shares of restricted stock).

During the first quarter, WebMD did not repurchase any shares of its common stock under its stock repurchase program. As of March 31, 2017, approximately \$45.6 million remained available for repurchases under WebMD's stock repurchase program. Under its stock repurchase program, WebMD may repurchase shares from time to time in the open market, through block trades or in private transactions, depending on market conditions and other factors.

### **Financial Guidance**

Today, WebMD reaffirmed its guidance for 2017 that was previously provided on February 16, 2017.

For the full year ending December 31, 2017, WebMD continues to expect:

- Revenue to be approximately \$710 million to \$730 million, an increase of 1% to 4% from the prior year.
  - \$580 million to \$598 million of revenue is expected to be from advertising and sponsorship, an increase of 3% to 7% from the prior year. Advertising and sponsorship from biopharma customers is expected to grow 2% to 5%. Advertising and sponsorship from OTC, CPG and other customers is expected to grow 8% to 11%.
  - \$99 million to \$100 million of revenue is expected to be from health services, compared to \$113.9 million in 2016
  - <sup>1</sup> \$31 million to \$32 million of revenue is expected to be from information services, compared to \$29.8 million in 2016.
- Net income to be approximately \$89.0 million to \$98.0 million, or \$1.97 to \$2.10 per diluted share, compared to \$91.3 million, or \$1.97 per diluted share, in 2016.
- Adjusted EBITDA to be approximately \$233 million to \$243 million, an increase of 1% to 5% from the prior year. Adjusted EBITDA, as a percentage of revenue, to be approximately 32.8% to 33.3%, compared to 32.7% in the prior year.

Dr. Zatz continued, "Our first quarter results were at the high end of our financial guidance provided in February and we are

reaffirming our 2017 guidance today. We have considered the near term pressures facing many of our biopharma customers in our financial guidance; however, we believe a strong drug pipeline, the continued shift toward digital advertising and the increased consumerization of healthcare present longer-term growth opportunities for WebMD across all areas of our business."

For the second guarter of 2017, WebMD expects:

- Revenue to be approximately \$170 million to \$173 million, an increase of approximately 1% to 3% from the prior year period.
- Net income to be approximately \$16.9 million to \$18.5 million, a decrease of approximately 5% to an increase of approximately 4% from the prior year period.
- Adjusted EBITDA to be approximately \$49 million to \$51 million, a decrease of approximately 2% to an increase of approximately 2% from the prior year period.

A schedule summarizing the Company's financial guidance is attached to this press release.

### **Analyst and Investor Conference Call**

WebMD will hold a conference call with investors and analysts at 4:45 p.m. (Eastern) today. The call can be accessed at <a href="https://www.wbmd.com">www.wbmd.com</a> (in the Investor Relations section). A replay of the audio webcast will be available at the same web address.

- (a) Reconciliation of net income to Adjusted EBITDA.
- (b) See Annex A Explanation of Non-GAAP Financial Measures.
- (c) See Supplemental 2017 Guidance for Income Per Share Calculation below.
- (d) The income tax provision included in the 2017 financial guidance excludes any adjustments for excess tax benefits, except for actual activity for the year-to-date period ended March 31, 2017, because such adjustments will be based on actual exercise or settlement activity of stock-based awards in future periods, which cannot be estimated at this time.

Additional information regarding forecast for the quarter ending June 30, 2017:

- Revenue is forecasted to be between \$170 million to \$173 million.
- Revenue distribution is forecasted to be: approximately 62.5% from Advertising and sponsorship Biopharma and medical device; 19% from Advertising and sponsorship OTC, CPG and other; 14% from Health services; and 4.5 % from Information services.
- Net income is forecasted to be between \$16.9 million to \$18.5 million.

- Adjusted EBITDA is forecasted to be between \$49 million to \$51 million.
- In calculating Adjusted EBITDA, the Company excluded the following expense items that are included in the calculation of Net Income: interest expense, net of \$5.2 million; depreciation and amortization of \$7.6 to \$7.4 million; non-cash stock-based compensation of \$9.0 to \$8.6 million; and income tax provision of \$10.3 to \$11.3 million. See Annex A Explanation of Non-GAAP Financial Measures.

The above guidance does not include the impact if any, of future deployment of capital for items such as share repurchases, convertible note repurchases or acquisitions, gains or losses from discontinued operations, other non-recurring, one-time or unusual items or the impact, if any, of the Board of Directors' review of potential strategic alternatives.

### WEBMD HEALTH CORP. SUPPLEMENTAL 2017 GUIDANCE FOR INCOME PER SHARE CALCULATION

Based on the Company's Financial Guidance for the Year Ending December 31, 2017, the 1.50% convertible notes, the 2.50% convertible notes and the 2.625% convertible notes are expected to be dilutive to net income on both the low end and high end of the full year guidance range. Additionally, the 1.50% convertible notes, the 2.50% convertible notes and the 2.625% convertible notes may be dilutive in certain future quarters, depending on the amount of net income for such quarter. The following table contains the approximate level of net income for an individual future quarter and for the full year 2017 at which each of the series of convertible notes would become dilutive to income per share. To the extent this net income is exceeded for any such period, the table also includes the amounts by which the numerator and denominator should each be adjusted for purposes of the diluted income per share calculation.

	Quarterly Amounts				Annual Amounts							
All amounts in millions	Conv	50% vertible otes	Con	.50% vertible lotes	Con	625% vertible lotes	Con	.50% vertible lotes	Con	.50% vertible lotes	Con	625% overtible lotes
Approximate net income at which convertible notes become dilutive (a)	\$	5.8	\$	11.9	\$	17.5	\$	23.3	\$	47.7	\$	69.8
Interest expense, net of tax to add-back to net income (numerator)	\$	0.9	\$	1.8	\$	1.7	\$	3.5	\$	7.3	\$	6.7
Additional shares to include in weighted- average diluted share count (denominator)		5.7		6.2		4.2		5.7		6.2		4.2

(a) These net income amounts assume a weighted-average diluted share count of 38.0 million shares attributable to common shares, stock options and restricted stock (prior to the effect of convertible notes) and are subject to change as such weighted-average share count changes for a given quarter or annual period.

### ANNEX A

### **Explanation of Non-GAAP Financial Measures**

The accompanying WebMD Health Corp. press release and attachments include both financial measures in accordance with U.S. generally accepted accounting principles, or GAAP, as well as non-GAAP financial measures. The non-GAAP financial measures represent earnings before interest, taxes, non-cash and other items (which we refer to as "Adjusted EBITDA"). Adjusted EBITDA should be viewed as supplemental to, and not as an alternative for net income or loss calculated in accordance with GAAP (referred to below as "net income"). The attachments to the press release include reconciliations of non-GAAP financial measures to GAAP financial measures.

Adjusted EBITDA is used by our management as an additional measure of our company's performance for purposes of business decision-making, including developing budgets, managing expenditures, and evaluating potential acquisitions or divestitures. Period-to-period comparisons of Adjusted EBITDA help our management identify additional trends in our company's financial results that may not be shown solely by period-to-period comparisons of net income. In addition, we may use Adjusted EBITDA in the incentive compensation programs applicable to some of our employees in order to evaluate our company's performance. Our management recognizes that Adjusted EBITDA has inherent limitations because of the excluded items, particularly those items that are recurring in nature. In order to compensate for those limitations, management also reviews the specific items that are excluded from Adjusted EBITDA, but included in net income, as well as trends in those items. The amounts of those items are set forth, for the applicable periods, in the reconciliations of net

income to Adjusted EBITDA that accompany our press releases and disclosure documents containing non-GAAP financial measures, including the reconciliations contained in the accompanying press release attachments.

We believe that the presentation of Adjusted EBITDA is useful to investors in their analysis of our results for reasons similar to the reasons why our management finds it useful and because it helps facilitate investor understanding of decisions made by management in light of the performance metrics used in making those decisions. In addition, as more fully described below, we believe that providing Adjusted EBITDA, together with a reconciliation of net income to Adjusted EBITDA, helps investors make comparisons between our company and other companies that may have different capital structures, different effective income tax rates and tax attributes, different capitalized asset values and/or different forms of employee compensation. However, Adjusted EBITDA is intended to provide a supplemental way of comparing our company with other public companies and is not intended as a substitute for comparisons based on net income. In making any comparisons to other companies, investors need to be aware that companies use different non-GAAP measures to evaluate their financial performance. Investors should pay close attention to the specific definition being used and to the reconciliation between such measures and the corresponding GAAP measures provided by each company under applicable SEC rules.

The following is an explanation of the items excluded by us from Adjusted EBITDA but included in net income:

- Depreciation and Amortization. Depreciation and amortization expense is a non-cash expense relating to capital expenditures and intangible assets arising from acquisitions that are expensed on a straight-line basis over the estimated useful life of the related assets. We exclude depreciation and amortization expense from Adjusted EBITDA because we believe that (i) the amount of such expenses in any specific period may not directly correlate to the underlying performance of our business operations and (ii) such expenses can vary significantly between periods as a result of new acquisitions and full amortization of previously acquired tangible and intangible assets. Accordingly, we believe that this exclusion assists management and investors in making period-to-period comparisons of operating performance. Investors should note that the use of tangible and intangible assets contributed to revenue in the periods presented and will contribute to future revenue generation and should also note that such expense will recur in future periods.
- Stock-Based Compensation Expense. Stock-based compensation expense is a non-cash expense arising from the grant of stock-based awards to employees. We believe that excluding the effect of stock-based compensation from Adjusted EBITDA assists management and investors in making period-to-period comparisons in our company's operating performance because (i) the amount of such expenses in any specific period may not directly correlate to the underlying performance of our business operations and (ii) such expenses can vary significantly between periods as a result of the timing of grants of new stock-based awards, including grants in connection with acquisitions. Additionally, we believe that excluding stock-based compensation from Adjusted EBITDA assists management and investors in making meaningful comparisons between our company's operating performance and the operating performance of other companies that may use different forms of employee compensation or different valuation methodologies for their stock-based compensation. Investors should note that stock-based compensation is a key incentive offered to employees whose efforts contributed to the operating results in the periods presented and are expected to contribute to operating results in future periods. Investors should also note that such expenses will recur in the future. Stock-based compensation expenses included in the Consolidated Statement of Operations are summarized as follows:

	Three Months Ended March 31,			
	2017			2016
Non-cash stock-based compensation included in:				
Cost of operations	\$	1,576	\$	1,290
Sales and marketing	\$	1,777	\$	1,562
General and administrative	\$	5,670	\$	5,676

Interest Income and Expense. Interest income is associated with the level of marketable debt securities and other interest bearing accounts in which we invest, and interest expense is related to our company's capital structure (including non-cash interest expense relating to our convertible notes). Interest income and expense varies over time due to a variety of financing transactions and due to acquisitions and divestitures that we have entered into or may enter into in the future. We have, in the past, issued convertible debentures, repurchased shares in cash tender offers and repurchased shares and convertible debentures through other repurchase transactions, and completed the divestiture of certain businesses. We exclude interest income and interest expense from Adjusted EBITDA (i)

because these items are not directly attributable to the performance of our business operations and, accordingly, their exclusion assists management and investors in making period-to-period comparisons of operating performance and (ii) to assist management and investors in making comparisons to companies with different capital structures. Investors should note that interest income and expense will recur in future periods. The following provides detail regarding the components of interest expense of our convertible notes:

	Т	Three Months Ended March 31,					
		2017		2016			
Non-cash interest expense							
2.25% Convertible Notes	\$	_	\$	159			
2.50% Convertible Notes	\$	446	\$	446			
1.50% Convertible Notes	\$	292	\$	292			
2.625% Convertible Notes	\$	341	\$	_			
Cash interest expense							
2.25% Convertible Notes	\$	_	\$	577			
2.50% Convertible Notes	\$	2,500	\$	2,500			
1.50% Convertible Notes	\$	1,125	\$	1,125			
2.625% Convertible Notes	\$	2,362	\$	_			

- Income Tax Provision (Benefit). We maintain a valuation allowance on a portion of our net deferred tax assets, the amount of which may change from quarter to quarter through adjustments to the income tax provision (benefit). The income tax provision (benefit) is also adjusted each quarter for excess tax benefits and/or deficiencies related to stock-based awards that vest or are settled in such quarter. The timing of such adjustments has not been consistent and as a result, our income tax expense can fluctuate significantly from period to period in a manner not directly related to our operating performance. We exclude the income tax provision (benefit) from Adjusted EBITDA (i) because we believe that the income tax provision (benefit) is not directly attributable to the underlying performance of our business operations and, accordingly, its exclusion assists management and investors in making period-to-period comparisons of operating performance and (ii) to assist management and investors in making comparisons to companies with different tax attributes. Investors should note that income tax provision (benefit) will recur in future periods.
- Other Items. We engage in other activities and transactions that can impact our net income. In recent periods, these other items included, but were not limited to: (i) gain on investments; (ii) loss on repurchases of our convertible notes; (iii) severance expense; and (iv) legal fees and other expenses incurred in connection with the process conducted by our Board of Directors to explore strategic alternatives for our company. We exclude these other items from Adjusted EBITDA because we believe these activities or transactions are not directly attributable to the performance of our business operations and, accordingly, their exclusion assists management and investors in making period-to-period comparisons of operating performance. Investors should note that some of these other items may recur in future periods.
