

On World Thrombosis Day, Medscape Education and International Society on Thrombosis and Haemostasis to Host Social Media Event to Raise Awareness of Blood Clots

NEW YORK, Oct. 12, 2021 -- Medscape Education will collaborate with the International Society on Thrombosis and Haemostasis (ISTH) in a World Thrombosis Day Twitter Chat Wednesday, October 13, to raise awareness about prevention and risks of blood clots. The event begins on Twitter at 11 am, Eastern Time.

Chat: <https://www.worldthrombosisday.org/action/world-thrombosis-day-2020-twitter-chat/>

World Thrombosis Day focuses attention on risk factors, prevention and current treatments for thrombosis, commonly known as blood clots. For a third consecutive year, Medscape Education will participate as a guest media host on the ISTH Twitter event in an interactive digital discussion that previously has garnered more than 100 million impressions.

Medscape Education will offer information and educational resources and interact with followers through the hashtags #WTD21 and #ClotChat. Several topics will be explored, including COVID-19 and thrombosis, cancer-associated thrombosis, and gender-specific risks.

"Medscape Education is proud to be collaborating once more with ISTH, and we're looking forward to participating in this year's World Thrombosis Day Twitter chat. Leveraging social media for this special event allows us to share vital information about thrombosis risk with an engaged global audience of healthcare professionals, patients, and survivors," said Adrian Duncan, Group Vice President, Medscape Education.

To join the discussion, follow Medscape and World Thrombosis Day on Twitter @MedscapeCME @ThrombosisDay or through the hashtags #ClotChat and #WTD21. The planned chat questions can be viewed [here](#).
